

**"PRENDIAMOCI CURA"
DEL NOSTRO MONDO**

A photograph taken from inside a dark cave, looking out through a jagged, irregular opening. The view is framed by the dark, textured rock of the cave walls. Outside, three prominent, sharp, and jagged rock peaks rise vertically against a blue sky with scattered white clouds. The base of these peaks is covered in a light-colored, rocky scree or talus. The lighting suggests it might be late afternoon or early morning, with the peaks catching some light.
